

I can't elude those distant dreams  
Or lay lost tenderness to rest

My fugitive loss hides  
From your love's depth

Love's worn and ragged blade stabs  
A blunt and tedious thrust

The unrevealed cowers beneath the revealed  
Crushed within

Resenting

Years creep over my skin  
Hauling me back

Days darkened grey  
Intercept me

And keep me  
From you
